EDUCATION

New Jersey Institute of Technology
Bachelor of Science in Information Systems

Newark, NJ
Sep. 2023 – May 2027

EXPERIENCE

Ying Wu College of Computing Tutoring Center Coordinator

Jan. 2025 - Present

New Jersey Institute of Technology

Newark, NJ

- Recruited and evaluated candidates from a pool of **50+ applicants** to support operations for **1000+ students**.
- Collected, cleaned, and analyzed data** from student feedback to identify trends and improve **service performance**.
- Streamlined scheduling and communication workflows across a **23-member team** improving **process efficiency**.
- Partnered with faculty stakeholders to implement **data-driven decisions** and improve program outcomes.

Vice President of NJIT's Student ACM Chapter

Jan. 2024 - Present

New Jersey Institute of Technology

Newark, NJ

- Coordinated with **10+ external organizations** (e.g., Major League Hacking, AWS) to support large-scale event execution.
- Managed **15+ Special Interest Groups**, tracking participation metrics and improving **organizational performance**.
- Helped organize and manage **300+ participant** 24-hour hybrid capture-the-flag cybersecurity event (JCTF).

PROJECTS

Themis | *Python, Flask, HTML/CSS, BeautifulSoup, HuggingFace, PyTorch*

Sep. 2025

- Developed** a full-stack **web application** using **Python** to **collect, process, and analyze data** from user inputs.
- Built automated pipelines to **clean and validate datasets**, improving **data reliability** and workflow efficiency.
- Applied **AI/ML** and **NLP models** (HuggingFace, PyTorch) to generate insights and support **data-driven decision-making**.

Mini C-Like Compiler | *C/C++*

Jan. - May 2025

- Developed** a system for structured data parsing and transformation, improving processing efficiency.
- Optimized performance through algorithm design and memory management**.
- Designed and executed test cases to validate parsing accuracy, performance, and scalability.

Interactive Coral Bleaching Map | *JavaScript, Python, React, Kaggle*

Nov. 2023

- Built an interactive **data visualization platform** to improve **data accessibility** and user understanding.
- Integrated an **AI chatbot** to enhance **user interaction** and real-time insights.
- Utilized JavaScript, Python, and Kaggle for web development, **AI integration**, and **data visualization**.
- Awarded **Best First-Year Hack** for innovation and effective use of **data visualization and analytics**.

TECHNICAL SKILLS

Languages: HTML, Java, Python, C/C++, SQL, JavaScript, R

Developer Tools: Git, Docker, Google Cloud Platform, VS Code, Visual Studio, IntelliJ, Jupyter Notebook, LaTeX

Libraries: Pandas, NumPy, Matplotlib

AFFILIATIONS

Rewriting the Code (RTC), Women in Computing Society (WiCS), Association for Computing Machinery (ACM)
